MUNICIPAL ENERGY MANAGER PROGRAM SKILLS AND BEHAVIOURS CHECKLIST

August 20, 2019

The Municipal Energy Manager (MEM) program is delivered by MCCAC with technical advisory support provided by CLEAResult. This document will help the hiring municipality assess the skills of candidates and provide MCCAC and CLEAResult an understanding of the strengths and experience of the hired candidate.

SKILLS CHECKLIST

Candidates with significant experience in all the Energy Manager responsibility and skill areas may be rare. Municipalities are encouraged to select a candidate with the most robust energy management experience among the candidate pool and the candidate that is the best fit with their organization. MCCAC-contracted technical advisors will provide training, coaching, and other supports to the hired MEM to supplement any experience or knowledge gaps they may have.

CHECKLIST

Tasks and Skills Level for the Position	N/A	Basic	Good	Extensive
Tasks and Skills Level for the Position N/A		Experience	Experience	Experience
Meticulous project management and tracking				
Analyzing the energy performance of processes				
using monitoring equipment and statistical analysis				
Guiding the development of overall continuous				
improvement or energy management plans				
Collecting, organizing, analyzing energy data				
Identifying, prioritizing, and implementing energy-				
saving projects				
Motivating and coaching facility management				
personnel and teams				
Technical report writing for technical and non-				
technical audiences				
Ability to coordinate internally and externally with a				
broad group of stakeholders to ensure alignment				
and delivery of program requirements and goals				
Excellent written communication skills for				
presentations, technical reports, e-mail, and other				
written documents				

Outstanding oral communication skills will be		
necessary for telephone, one-on-one		
communication, and presentations to groups
